📁 Portfolio

Professional Summary

Versatile Business & Data Analyst with 2+ years of experience translating complex datasets into actionable operational and marketing insights. Proven track record collaborating with cross-functional stakeholders to streamline workflows, develop reporting systems, and optimize digital media campaigns for major streaming platforms (Disney+ and Hulu). Highly skilled in requirements gathering, media planning strategy, campaign analytics, and predictive modeling, delivering clear data narratives that drive strategic budget decisions, maximize ROAS, and empower executive decision-makers.

Technical & Business Skills

Data & Analytics: SQL (MySQL, BigQuery), Python, R, Databricks, Operative One, Statistical Analysis, Predictive Modeling, ETL Pipelines, Data Warehousing, Root Cause Analysis

Business Analysis: Requirements Gathering, Gap Analysis, Process Optimization, Agile / Jira, Stakeholder Management, KPI Tracking, Risk Mitigation, UAT

Campaign & Media Analytics: Media Planning, Campaign Optimization, Digital Advertising (Display, Programmatic, Streaming), A/B Testing, Audience Segmentation, ROI / ROAS Analysis, CPM Modeling, Pricing Strategy, Customer Churn Analysis

BI & Visualization: Tableau, Power BI, Salesforce, Google Campaign Manager, Advanced Excel (PivotTables, Goal Seek, Solver, Power Query, Macros), Plotly, Dash

Professional Experience

OhioHealth

Jan 2026 to May 2026

Healthcare Operations Data Analyst (Capstone)

Dayton, Ohio

- Partnered with the Lean Promotion Office and business stakeholders to gather requirements and analyze operational data across 18 hospital sites, isolating variances that triggered excessive countermeasures and workflow disruptions.
- Evaluated 47 active performance KPIs, designing an interactive Excel dashboard with adjustable threshold logic to standardize performance limits and minimize reactive interventions across clinical and operational teams.
- Translated complex operational metrics into executive-ready data stories, enabling healthcare leadership to optimize resource allocation, improve forecast accuracy, and stabilize workflow fluctuations.
- Awarded a Certificate of Appreciation for exceptional requirements gathering and delivering reporting dashboards with high adoption rates across the organization.

MediaMint Pvt. Limited

Apr 2024 to Aug 2024

Senior Media Planner / Campaign Analyst

Remote

- Partnered with Sales, Revenue Management, and cross-functional stakeholders to define business requirements and implement data-driven media planning strategies, optimizing pricing models and inventory allocation for major streaming platforms.
- Designed and automated daily/weekly performance dashboards in Salesforce, tracking impressions, spend, CPM, and ROAS trends, translating raw campaign metrics into actionable executive insights that directly informed budget decisions.
- Conducted gap analysis on complex campaign performance datasets, identifying workflow inefficiencies and advising sales leadership on targeted improvements that maximized budget clearance and return on ad spend.
- Facilitated Agile project workflows in Jira to manage cross-regional campaign coordination, ensuring accurate media setup, on-time delivery, and strict SLA compliance with near-zero error rates.

MediaMint Pvt. Limited

Feb 2022 to Mar 2024

Media Planner / Campaign Analyst

Remote

- Managed full-cycle digital advertising campaigns for a leading streaming platform using Operative One, analyzing audience data (demographics, genre preferences, and geography) to guide targeting decisions and optimize campaign ROI across multiple markets.
- Leveraged SQL, R, and Python to consume, analyze, and manage large-scale advertising datasets, uncovering actionable insights to optimize performance metrics and support data-driven targeting recommendations.
- Built Excel-based forecasting models using CPM analysis, PivotTables, Goal Seek, and Solver for media budgeting, pacing projections, and performance prediction, enabling proactive planning for high-volume campaign periods.
- Advised sales and revenue teams on inventory allocation and pricing strategy based on demand signals and audience segmentation insights, directly influencing campaign planning and revenue outcomes.
- Supported two regional planning teams simultaneously during peak periods, maintaining delivery standards and contributing to team-wide efficiency, SLA performance, and campaign quality.
- Recognized with Employee of the Quarter, Client's Favorite Award, and Spot Award for delivering complex campaign deliverables ahead of SLA, earning exceptional client satisfaction, and demonstrating consistent excellence in campaign operations.

Analytics Projects

- Healthcare Operations Dashboard (OhioHealth)** | *Excel, Inferential Statistics, T-Tests, Lagged Regression*: Analyzed operational data across 18 hospital sites; built interactive Excel dashboard with threshold logic to stabilize KPI variance and minimize reactive interventions across clinical operations.
- Customer Churn Prediction** | *Python, R, Machine Learning, Databricks*: Built and cross-validated Random Forest,

Decision Tree, and regularized regression (LASSO/Ridge) models to predict telecom churn; conducted EDA and variable importance ranking to surface key retention drivers for marketing strategy.

- **Interactive Sales Dashboard** | *Python, Pandas, Plotly, Dash*: Engineered a self-service sales performance dashboard with dynamic filters by region, year, model, and fuel type, delivering KPI visualizations, heatmaps, and trend analysis without analyst intervention.
- **SQL & Cloud ETL Pipeline** | *MySQL, Python, Azure Blob Storage*: Designed a relational database schema and automated an end-to-end ETL pipeline to extract, validate, and transform raw traffic and environmental data into analytics-ready tables, eliminating hours of manual data entry.
- **Inventory Optimization Simulation** | *Advanced Excel, Macros, Monte Carlo, IBM SPSS*: Applied Monte Carlo simulations and regression analysis to model inventory fluctuations, pinpoint supply chain bottlenecks, and deliver cost-reduction recommendations to operations leadership.
- **Global Demographic Trends Dashboard** | *Power BI, DAX, Power Query*: Built an interactive Power BI platform with automated data refreshes, row-level security, and advanced DAX measures to explore global fertility trends across multi-source datasets.

Education

Master of Science in Business Analytics, GPA: 3.68 / 4.0 <i>University of Dayton</i>	Completed May 9, 2026 <i>Dayton, Ohio</i>
Bachelor of Science in Mathematics, Electronics & Computer Science <i>Avanthi Degree and P.G. College</i>	Completed Jun 2022 <i>Hyderabad, India</i>

Certifications & Achievements

- **Employee of the Quarter (MediaMint, 2022)**: Awarded for facilitating high-impact Agile workflows, conducting gap analyses, and delivering data-driven campaign process improvements during a high-volume political advertising period with 100% on-time SLA delivery and near-zero error rates.
- **Client’s Favorite Award (MediaMint, 2023)**: Recognized for consistently securing exceptional client feedback and delivering complex campaign deliverables well ahead of scheduled SLAs.
- **Spot Award for Excellence (MediaMint, 2024)**: Acknowledged for outstanding dedication and driving campaign success aligned with corporate EPIC values.
- **Certificate of Appreciation (OhioHealth, 2026)**: Recognized for exceptional requirements gathering and translating complex healthcare operational metrics into actionable, highly adopted reporting dashboards across 18 hospital sites.
